

Editor runs in Windows 7 operating system

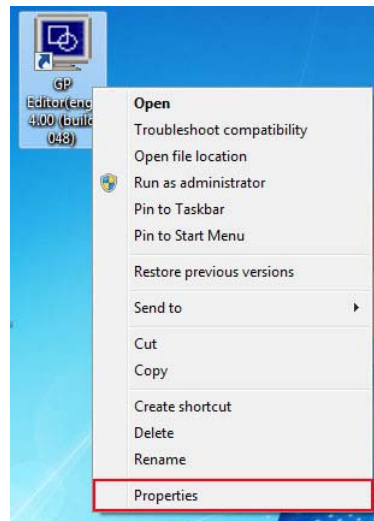

(If an account of Window7 is 'Administrator' as OS default, Editor runs normally without configuration.)

1 Editor runs as administrator

(if there is no administrator account, refer to '2 In case of no administrator account (Create administrator account windows 7)')

1st Select 'Editor' icon and click it with right mouse button and pop-up menu appears.

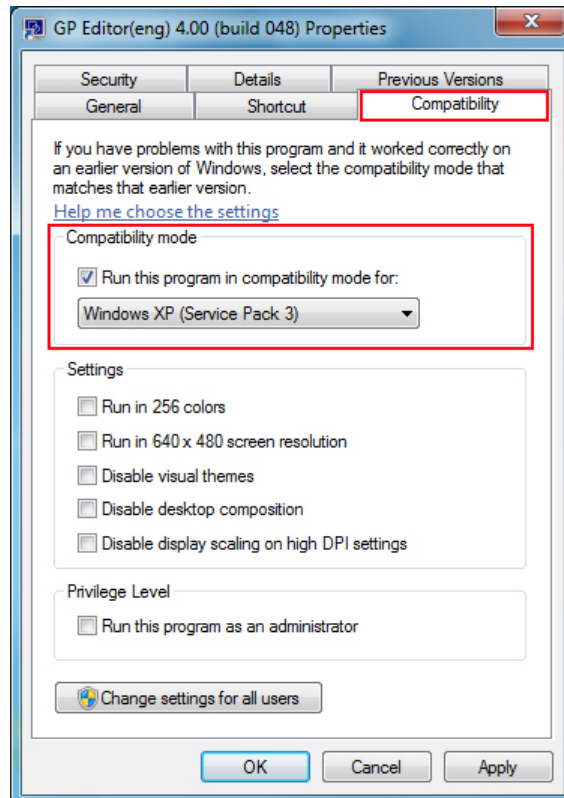

Select 'Properties (R)'

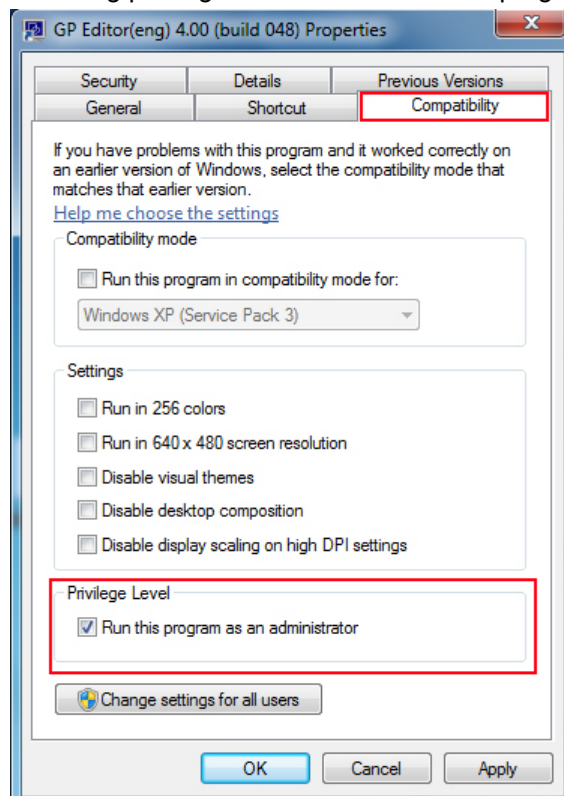

2nd 'Editor Properties' dialog box appears. Select 'Compatibility' tab.

(Check one 'Compatibility mode' or 'Privilege Level'.)

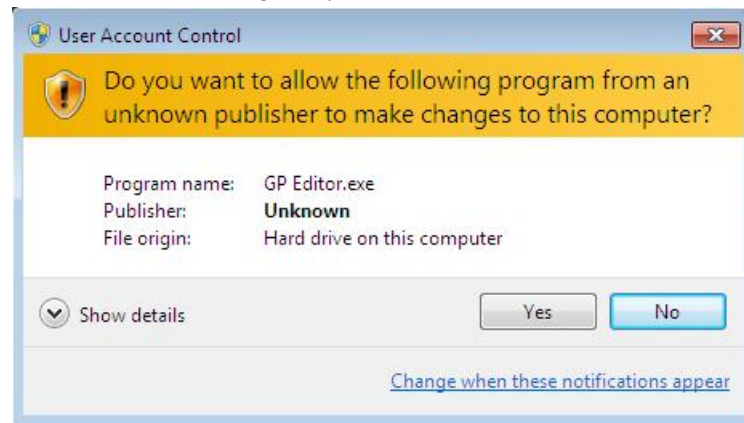

Checking compatibility mode: Check 'Run this program in compatibility mode for:' and select 'Windows XP (Service Pack 3)' by below pull down menu and click 'OK'.

Checking privilege level: Check 'Run this program as an administrator' and click 'OK'.

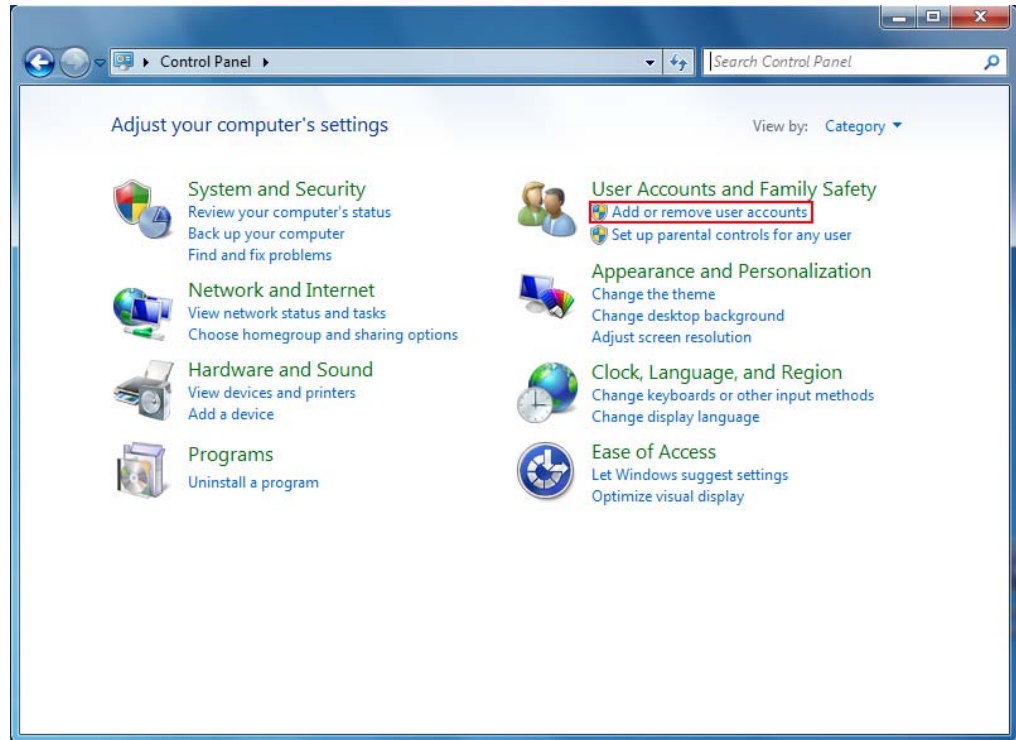

- 3rd Executes Editor, 'User Account Control' dialog box appears. Click 'Yes(Y)' and Editor executes. (To disable 'User Account Control' dialog box, refer to '3 Disable to user account control dialog box')

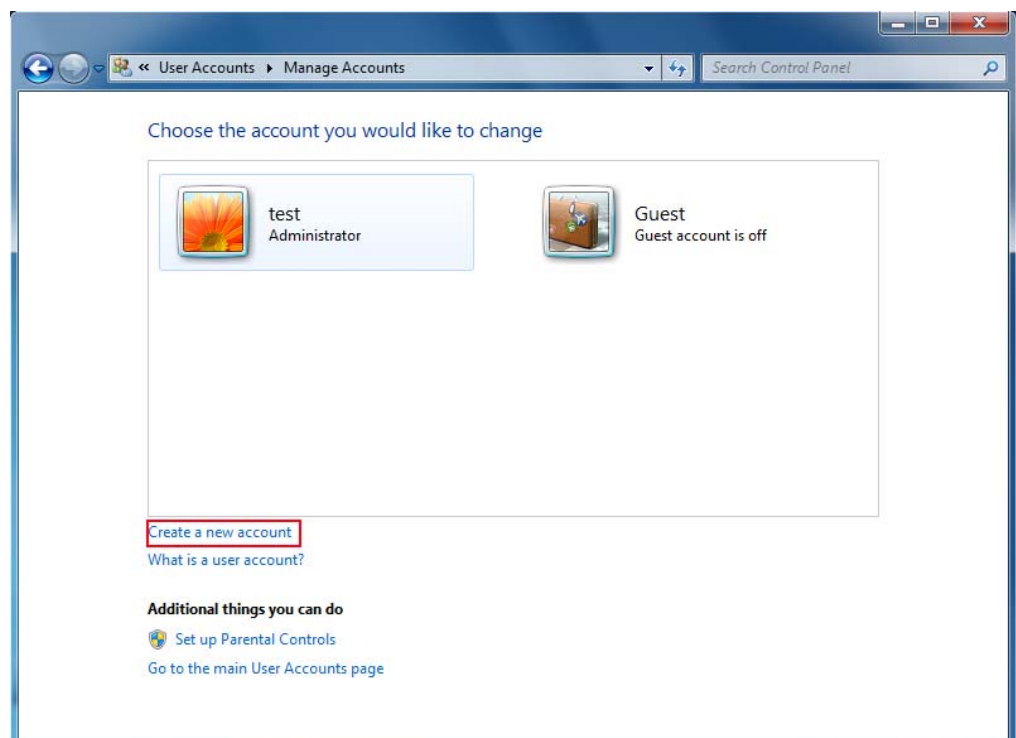

2 In case of no administrator account (Create administrator account windows 7)

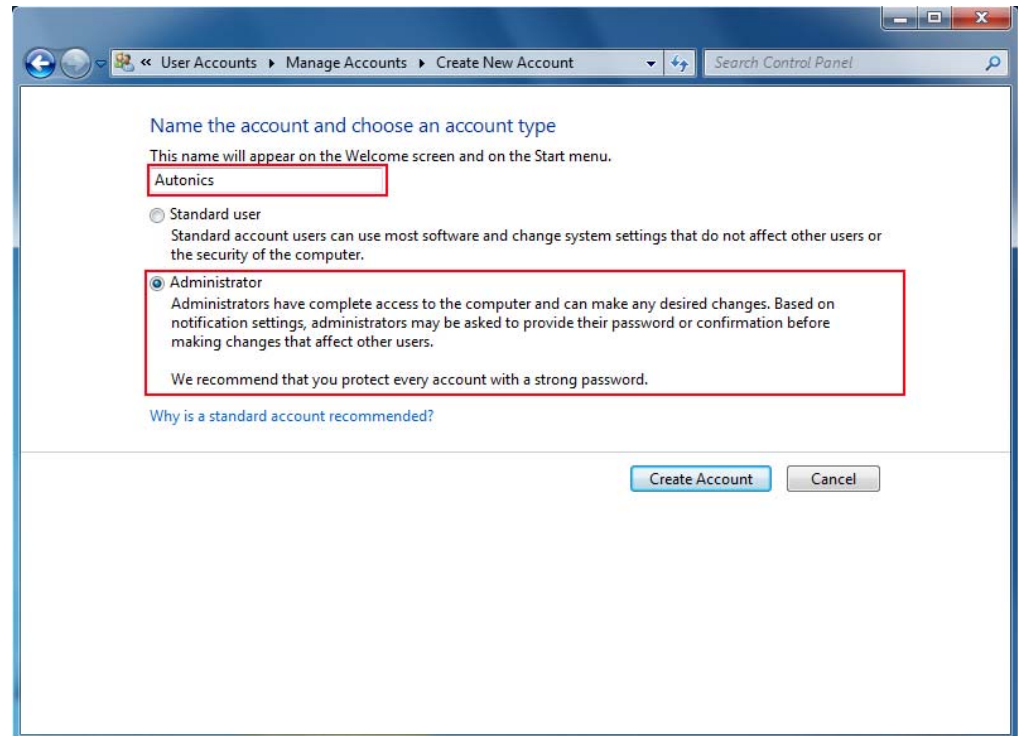

1st Select [Start]-[Control Panel]-[Add or remove user accounts].

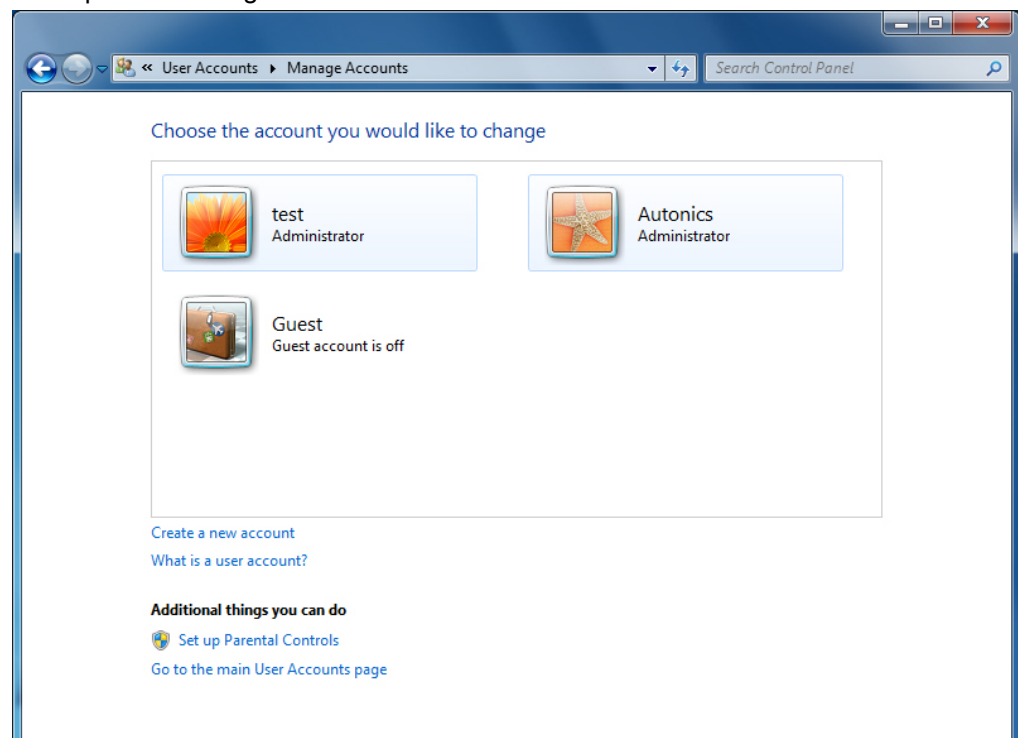

2nd Click 'Create a new account'.

- 3rd Enter the desired account name in 'Name the account and choose an account type' and select 'Administrator (A)' and click 'Create Account'.

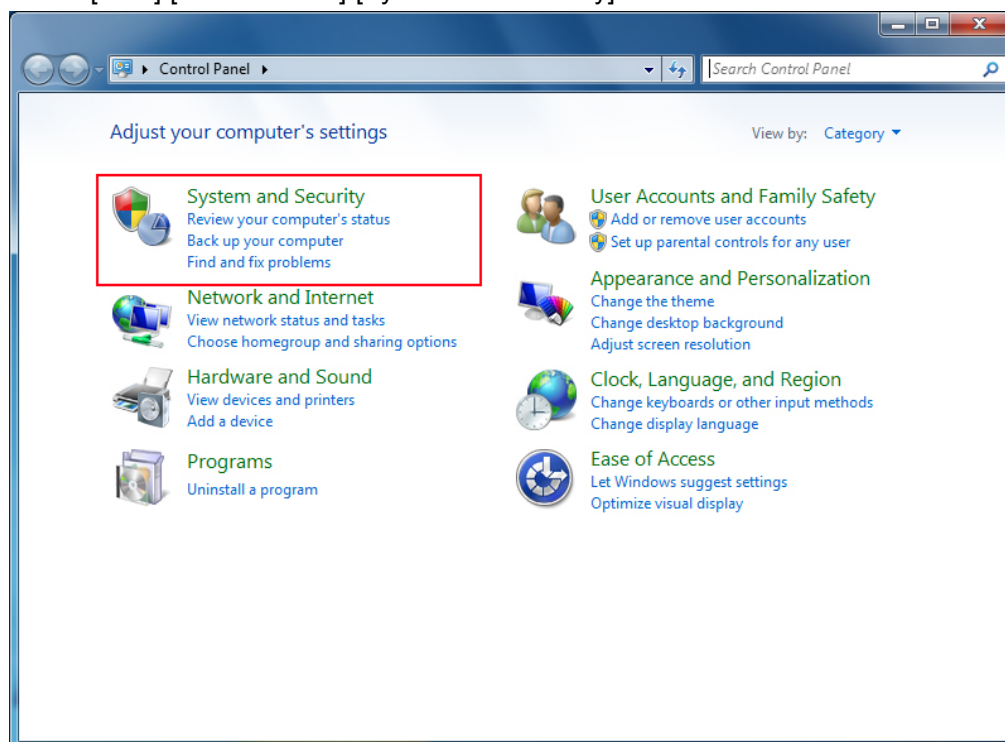

- 4th It completes creating administrator account.

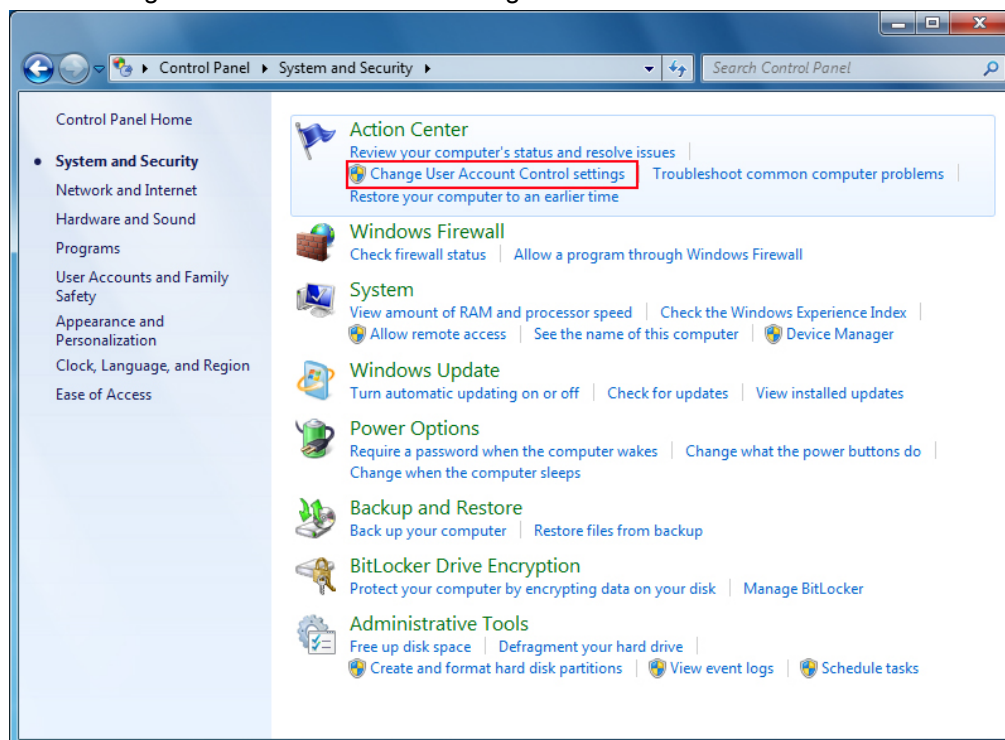

3 Disable to user account control dialog box

1st Select [Start]-[Control Panel]-[System and Security].

2nd Click 'Change User Account Control settings'.

3rd 'User Account Control Settings' dialog box appears. Select as 'Never notify' and click 'OK'.
